Along with his family, he left the village for the city. At night, they stopped under a large tree. There was a stream running nearby where they could freshen up themselves. He told his sons to clear the area below the tree, he told his wife to fetch water and he instructed his daughters-in-law to make up the fire and started cutting wood from the tree himself. They didn't know that in the branches of the tree, there was a thief hiding he watched as Ram's family worked together and also noticed that they had nothing to cook. Que-4(B) Read the following passage and answer the short questions given below:

A sanctuary may be defined as a place where Man is passive and the rest of Nature active. Till quite recently, Nature had her own sanctuaries, where man either did not go at all or only goes as a tool-using animal in comparatively small numbers. But now, in this machinery age, there is no place left where man cannot go with overwhelming forces at his command. He can strangle to death all the nobler wild life in the world to-day. To-morrow he certainly will have done so, unless he exercises due foresight and self-control in the mean time. There is not the slightest doubt that birds and mammals are now being killed off much faster than they can breed. And it is always the largest and noblest forms of life that suffer most. The whales and elephants, lions and eagles, go. The rats and flies, and all mean parasites, remain. This is inevitable in certain cases. Civilized man begins by destroying the very forms of wild life he learns to appreciate most when he becomes still more civilized. The obvious remedy is to begin conservation at an earlier stage, when it is easier and better in very way, by enforcing laws for close seasons, game preserves, the selective protection of certain species, and sanctuaries.

Questions:

- (1) What is the definition of a sanctuary given in the passage?
- (2) What can humans do with their overwhelming forces?
- (3) What does a civilized man do?
- (4) What is the obvious remedy to save the wildlife?
